

KR TIGER

Komfi-Rider Tiger

The everyday powerchair that won't let you down

- > Space-saving four-wheel design with rear-wheel drive
- > Fully programmable dynamic controller
- > Comfortable and easy to use

Komfi-Rider Tiger

If you want a powerchair for general use that's responsive, reliable, stable and manoeuvrable, you need the Komfi-Rider Tiger.

The Tiger can turn in its own length, with handling precise enough to get round obstacles in tight spaces quickly and easily.

It's comfortable too, with a deluxe 'captain' seat, adjustable headrest, variable-angle backrest and flip-up armrests. A swivel seat makes transfers quick, easy and safe.
