

Phoenix

Fast and Stylish 8mph scooter

- Full front and rear suspension giving a really comfortable ride
- Compact size allows for safe driving in 'space-restricted' areas
- Cornering 'safety' device for safer travels
- Long lasting 50ah batteries allowing for extensive travels
- Comfortable and fully adjustable captain seat

Phoenix

When looking for a stylish and manoeuvrable 8mph scooter that has the capacity to go the distance then the Phoenix is the scooter of choice. With its fully road compliant LED lighting kit, it is equally at home in the high street and shopping centres than it is out in the countryside traversing parkland and beaches. With a compact size of only 630mm in width and 1220mm in length the Phoenix easily negotiates crowded pavements and narrow entrances. With its fully adjustable captain seat and full front and rear suspension the Phoenix smooths out the bumpiest of pavements ensuring great comfort. The large capacity 50Ah batteries ensures complete peace of mind for those long journeys and the powerful motor and drive system makes light work of steep hills, while the unique 'safety cornering' system automatically slows the scooter when cornering ensuring not only a very comfortable ride but a safe one to!

Small in size but enormous in capabilities; the Phoenix is the first choice mobility scooter for the users of today.
