

Duke

Contemporary comfort

- Contemporary styling & design
- Allows you to safely stand, recline & relax
- Choice of modern & luxurious fabric options
- Smooth and quiet lift in both single & dual motor
- Exceptionally comfortable seat with soft roll-over arms

Duke

Combining exceptional comfort with contemporary design, the Duke rise and recliner guarantees highly supportive seating with a cushioned back, soft roll-over arms and a multiple sprung base with generous layers of foam. Stand, recline and relax in comfort and safety with the smooth and quiet motors of both the single and dual motor chairs. A simple-to-use hand controller makes it easy to lift the chair to the position you need, quickly making you comfortable. Discreet loops attached to both sides of the chair allow the controller to be hung safely in an easy to reach position and can be switched for both left and right-hand use. Large pockets are also located on each side, expanding storage space and allowing for easy access to the things you need. With a choice of modern and luxurious fabric options, you can pick the colour that best compliments your surroundings. Seat covers are also removable and replaceable, which allows for ease of mind when accidents or spills occur.
