

# SONIC

## Premium aluminium transit and self-propelled wheelchair range

- > Height adjustable ergonomic armrests & folding back
- > Attendant brakes on both transit & self-propel models
- > Removable swing-away footrests with adjustable heel straps
- > Sleek & modern styling with a choice of 18" and 20" seat widths
- > Exceptionally lightweight aluminium frame with weight capacity up to 20 stone
- > Extremely comfortable with integrated and breathable cushioned seat & backrest

## Sonic

The Sonic wheelchair with its premium aluminium frame is exceptionally lightweight. With its high quality components it is also very strong and durable with a user weight capacity of up to 20 stone.

The Sonic combines sleek and modern styling with a very comfortable and supportive seating position due to its integrated and breathable cushioned seat and backrest.

The ergonomic armrests have also been designed to be quick and easy to adjust with the quick-release push button allowing you to speedily change the armrest height to your most comfortable position. Also for sitting at a table the armrests can be lowered completely.

With its folding back, quick release rear wheel\* and swing-away removable footrests, the Sonic is fast and easy to fold and disassemble for transport or storage. The footrests are also adjustable in height allowing you to find your most comfortable foot position and come as standard with an adjustable heel strap.

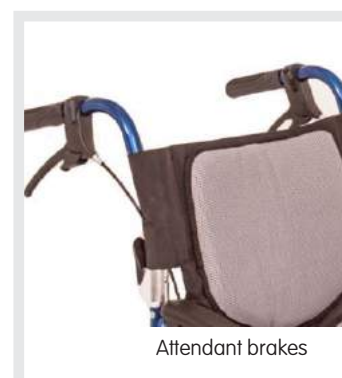

The Sonic is available in transit style with a 12in rear wheel or the self-propel model with the larger 24in rear wheel. Both versions have a choice of either the 18in or 20in seat widths and come as standard with attendant and wheel hand brakes keeping you safe whatever the terrain.
