Alpine

The Alpine mobility scooter is designed for luxury travel and stands out as the premier choice. Its not just a mode of transport, its a statement of independence and style. Its robust 'All Weather' Solid Canopy ensures a pleasant ride regardless of the weather conditions. Let's explore its features:

High Capacity: Equipped with 75Ah batteries, the Alpine provides peace of mind for long journeys.

Powerful Motor and Drive System: Conquer steep hills effortlessly with the Alpine's robust motor and drive system.

Safety Cornering System: Automatically slows down when cornering, ensuring both comfort and safety.

Heavy Duty Vinyl Covers: With heavy duty zips and vinyl waterproof fabric, the optional covers for the sides, rear and lower front will keep you dry and comfortable and can be quickly rolled up out of the way when not required.

13" Tyres and All-Round Suspension: Navigate high ground and rough terrain with ease.

Fully Adjustable Captain Seat: Enjoy exceptional comfort and spacious seating.

Gas-Assisted Tiller: Easily adjust driving controls.

Road Compliant LED Lighting Kit: Feel at home whether on the high street or in the countryside, day or night.

Long-Range Confidence: The large 75Ah batteries provide the assurance you need for extended trips.
