Mirage

The New revolutionary Mirage Scooter is a groundbreaking mobility solution that combines revolutionary design, lightweight construction, and stability with effortless folding for trouble-free transportation and compact storage.

Exceptionally Lightweight aluminium frame design: with total weight* including the folded seat of only just over 14kg makes the scooter very manageable for lifting into and out of your car boot.

Fast & Easy Folding: Folding or unfolding the Mirage takes only approximately 30 seconds!

The Wide and Spacious Seat: with its cushioned supportive back ensures a fantastically enjoyable and comfortable driving experience. Plus, the adjustable arms provide extra comfort and security as needed.

Exceptionally Lightweight Lithium Battery: Available in both 10Ah or 20Ah size options, the battery is easily accessible and simple to remove. You can charge it off-board directly into the battery case or via the easily accessible tiller charger.

Adjustable Tiller: The unique tiller allows for forward/back and height adjustment ensuring the perfect user steering position. Large capacity basket

Large Capacity Basket; allows you to carry your essentials conveniently and safely and has been designed for fast and easy fitting or removal.

Dual charging ports: Choose between the battery box charging port or the tiller charging port.

So whether you're cruising through city streets or enjoying scenic routes, the Mirage Scooter ensures a smooth and convenient ride for all your mobility needs.
