5-year warranty on UK built mechanism

Fully Adjustable Electric Head Tilt.

# Chancellor Flex

The new **Chancellor Flex** chair offers **unrivalled comfort and luxury** with its **fully adjustable electric head tilt** coupled with the premium **tilt-in-space mechanism** allowing you to quickly and **effortlessly find your perfect seating position** including ensuring you the **perfect TV watching position!**

As you recline back in the chair you will find yourself **gently tilting back** by the 'tilt-in-space' motion which **ensures your feet rise as the same time as the back reclines** maintaining **even pressure and support across your body** from your feet to your head. Conventional dual motor chairs stretch your lower back as you recline and then compress it when returning to the sitting position, but the Chancellor Flex **removes this stretching/compression of your lower back** and dramatically **lessens the chances of pressure injuries** developing, even when sitting for prolonged periods of time.

Choose from a range of **premium fabrics including waterproof 'easy clean'**, all of which are available for **express delivery** in any of the three sizes (**Small, Medium, Large**), ensuring you the perfect fit and with its **5-year warranty on the UK built mechanism**, you are also guaranteed peace of mind as well as comfort!
