Duke

The single motor Duke rise and recliner is designed for comfort and support. With its advanced features, this chair ensures a luxurious seating experience.

Single motor Mechanism: Its straightforward and user friendly two button control powers both the footrest and backrest.

Luxurious Back Cushions: The three back cushions are complemented by generous layers of foam and filling.

Heavy Duty Frame, guarantees long-lasting durability for years to come. Whether you're relaxing, reading, or watching TV, this chair is built to withstand the test of time.

Designed with safety as well as comfort, you can safely stand up from and sit down into the chair. Whether you're getting up or settling back down, this chair ensures a secure and comfortable experience.

The quiet and smooth motor operation ensures that it remains unobtrusive in your home environment, while the large pockets located on each side allows for easy access to the things you need.

The hand controller ensures that you can easily see each button and can be controlled from either the right or left hand.
