Super lightweight carbon fiber powerchair: swift, foldable, and perfect for travel!

Transport  
Weight Only  
14 kg!

Puncture  
Proof Solids

Aluminium Lightweight  
Design

Efficient Brushless  
Motor

Very fast and easy to  
fold for your car boot

# Olympus CF

Crafted with cutting-edge carbon fiber materials, this wheelchair boasts an exceptionally low weight, ensuring effortless manoeuvrability and minimal strain during use and when transporting. Its innovative design prioritizes speed and agility, allowing users to navigate various terrains with ease.

**Super Lightweight Construction:** Made from advanced carbon fiber materials, the Olympus CF wheelchair is exceptionally light, reducing strain and enhancing manoeuvrability.

**Effortless Portability:** Its foldable design allows for quick and easy transport and storage, making it the ideal travel companion and with its slim, compact profile when folded makes it perfect for transport during air, train, or road journeys.

**Uncompromised Comfort and Functionality:** The Olympus CF wheelchair does not sacrifice comfort or practicality with its deep padded seat cushion and cushioned backrest.

**Dual charging ports:** Choose between the battery box charging port or the tiller charging.

**Swing-Back Arms:** Equipped with a convenient button, the arms effortlessly fold back, allowing smooth transitions when transferring in and out of the powerchair and also ensures comfortable seating at tables.

**Hand Controller:** The intuitive controls, ensuring a smooth user experience. Additionally, it can be easily customized to accommodate both right-handed and left-handed users.

**Attendant control option:** Allows for caregivers to effortlessly navigate the powerchair if required and can be quickly reinstated back to the standard 'user-control' position.
